

EMPLOYEES OF THE YEAR 2025

The last working day of 2025, saw the annual DCE presentation to employees of the year.

Employee of the year is chosen by the DCE directors, and this year was presented to Design Engineer Josh Gill.

Josh has worked hard over the past 6 years gaining technical skills and absorbing industry knowledge. Learning the trade on the shop floor right through to his position in the design team, Josh has been integral to the innovative design and quality of our market leading DCE filters..

The 2nd award presented was employees' employee award and given to Marketing Manager, Sally Moores. Voted for by her colleagues the award reflects on the achievements and results seen from the marketing activity over the past 2 years since she started at DCE.

NEW LOGISTIC UNIT ENHANCES OPERATIONS

Due to continual growth here at DCE we have recently acquired additional premises to enhance our operations.

The new Logistic Unit is located just a stone's throw from DCE HQ. It's primary use is to store our dust collector spare parts and component stock which is now integrated directly into our ERP system, allowing more efficient stock control, speeding up delivery times.

Relocating storage off-site has also freed up valuable space in our main fabrication and assembly hall, giving the engineering team even more room to build our dust collectors - which includes some truly impressive large-scale units.

This new logistics facility marks another investment made by DCE to elevate further the quality of products and services we deliver to our customers.

AFTERMARKET TEAM DELIVER RECORD MONTH

All the hard work and commitment paid off for the Dust Control Environmental Aftermarket Team in January, when they smashed their targets. Making this an all time record month, they certainly started 2026 off with a bang.

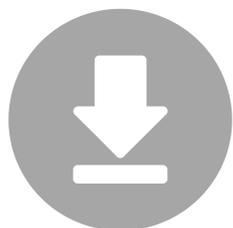

The dedicated team consists of Lois - Team Manager, Konrad - Sales, Owen - Admin and our 2 LEV engineers George & Marc.

Fantastic effort from everyone in achieving and exceeding their goals.

Aftermarket have also been fine tuning their services offers. From digital portals to multi - site savings, you can find it all in an updated and refreshed Aftermarket brochure.

The brochure from our website now.

AWARD NOMINATION

Dust Control Environmental is proud to be nominated for Independent Business of the Year at the Yorkshire Choice Awards! The awards celebrate amazing Yorkshire independent businesses.

Public voting is now open and we'd love it if you went to the Yorkshire Choice Awards website and drop us a vote!

ICONIC INSTALLATION

We were thrilled to be invited to supply the iconic North Yorkshire Moors Railway with a dust extraction system.

Their woodworking shop required a system to control dust and shavings to protect the workforce, equipment and environment.

This, the latest DCE case study, goes into greater detail on NYMR's requirements and the ECO 30 dust extractor provided.

You can find the case study (along with others) on the below link!
